DR. HARMON'S COMMITMENT TO VETS

"My commitment is to assist you in maintaining an excellent level of care for your clients and patients, to be your source for canine and feline cardiac care in British Columbia, and to partner with you to provide this care."

ABOUT DR. HARMON

Dr. Mark Harmon is a board-certified veterinary cardiologist with a special interest in cardiomyopathies and interventional (minimally invasive, catheter-based) therapies for congenital diseases and bradyarrhythmias.

Dr. Harmon comes to Boundary Bay Veterinary Specialty Hospital from a busy private practice in Seattle where he has already had the opportunity to work with many local BC and northern WA veterinarians in the care of their patients.

Dr. Harmon is passionate about joining Boundary Bay's team-oriented hospital and building a highly collaborative cardiology service with the goal of providing specialized cardiac care for patients in our area.
